## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Amendments*

1. By amendment filed on 05/16/03 the Applicant has amended claims 1, 4, and 5. Claims 1-5 are pending in the instant application.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-5, are rejected under 35 U.S.C. 103(a) as being unpatentable over 2002/0053629 to Hokugoh in view of US/6,231,020 to Willson.

Regarding claim 1, 4, and 5, Hokugoh disclosed (Fig. 1-11) a display device comprising:  
a display part (3); and a base part (4) supporting the display part (3), said base part (4) comprising:

a tilt unit (13) to mount the display part (3) thereon for rotation about a first axis;  
a first member (14) directly or indirectly supporting the tilt unit (13);  
a second member (11) disposed in a facing relationship with the first member (14);

Art Unit: 2835

a guide part (21, 22, 53, 54) provided on one of the first member (14) and the second member (11) for relative rotation therebetween about a second axis different from the first axis; and at least one low friction member (12) disposed between the first member (14) and the second member (11).

Regarding claims 2 and 3, Hokugoh disclosed a cover (15) having an aperture (61), wherein the tilt unit (13) is fixed to the first member (14) through the aperture (61) of the cover (15), (Fig. 3), the cover (15) is indirectly fixed to the first member (14), and the first member (14) is disposed between the cover (15) and the second member (11).

Regarding claims 1-5, Hokugoh did not disclose that said low friction member comprises a plurality of generally spherical ball-shaped or mushroom-shaped members.

Willson disclosed (Fig. 6) a swivel device for computer equipment comprising a plurality of generally spherical ball-shaped low friction members (86) disposed between first (40) and second (44) members.

Since the inventions of Hokugoh and of Willson are from the same field of endeavor (swiveling support devices for computer equipment), the purpose of the spherical ball-shaped low friction members disclosed by Willson would be recognized in the invention of Hokugoh.

It would have been obvious to a person of ordinary skill in computer art at the time the invention was made to substitute the low friction member (12) of Hokugoh with a plurality of spherical ball-shaped low friction members as taught by Willson, in order to enhance convenience for a user by reducing the friction between said first and second members of Hokugoh.

*Response to Arguments*

4. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
